Zalán Valkó

JUNIOR FRONTEND DEVELOPER

PERSONAL PROFILE

I'm a passionate and very ambitious developer, with a constant focus on helping companies grow through innovation and automation. I love thinking about new ways of doing things, and improving everything that I encounter.

PROJECTS

SUDOKU WEB APPLICATION
Personal Project

Implemented a recursive backtracking algorithm to solve any sudoku puzzles. The UI was made with HTML, CSS. The core logic was written in Javascript, utilizing the NodeJS module system.

RESPONSIVE PORTFOLIO WEBSITE
Personal Project

Made with HTML5, CSS3 with Sass and JavaScript with jQuery. For the build process, I used Gulp and ensured cross-browser compatibility with Babel and autoprefixer.
